BHT Introduces New and Improved EAP from Behavioral Health Systems for 2023

November 28, 2022

4-visit plan for employees and dependents is being offered at no change to the current EAP rate.

Dear Valued Producer,

In an ongoing effort to support the total health of members, Business Health Trust has partnered with [Behavioral Health Systems](#) to provide new and improved behavioral healthcare and workplace wellness support to members and their covered employees.

Beginning January 1, 2023, Behavioral Health Systems will replace Wellspring EAP as the employee assistance program (EAP) for your Business Health Trust groups renewing January 1.

Please be sure your members are aware of this exciting change, along with some of the below improvements to their coverage:

- **Critical Incident & Crisis Response** – Access to a counselor within 2 hours – 24 hours a day, 7 days a week, 365 days a year.
- **Mental Health Therapy** – In-person, video and phone-based sessions with a trained therapist. Choose from a nationwide network.
- **Financial Advice** – Speak with advisors for assistance on budgeting, estate planning, debt reduction, saving for college, etc.
- **Legal Advice** – Speak with an attorney for referrals for personal legal advice, tax and IRS issues, will preparation, etc.
- **Tools for Supervisors** – Supervisory referrals, training and more.
- **Support for Dependents** – At no added cost, dependents can access the EAP.

Business Health Trust also is reaching out to members to notify them of this update, and will provide additional tools in January to help employers share the new program with covered employees.
