More Primary Care Options Now Available for Your CleanTech Alliance Health Trust Groups

April 20, 2022

Valuable partnership with Kinwell Medical Group aims to improve access to care throughout Washington.

Primary health care options are growing across Washington for your clients enrolled in the CleanTech Alliance Health Trust through a valuable partnership between Premera Blue Cross and [Kinwell Medical Group](#).

Since [announcing their collaboration](#) to improve access to primary care in Washington, Kinwell Medical Group has opened five new primary care clinics statewide that are accessible exclusively to people who have Premera Blue Cross, Premera Blue Cross Medicare plans or LifeWise Health Plan of Washington as their primary insurance, as well as BlueCard holders.

This partnership is a key part of Premera's strategy to address the growing primary care crisis.

"If we're going to live up to our mission of making healthcare work better, we simply cannot afford to sit on the sidelines and allow this crisis to grow," said Lee McGrath, executive vice president of health care services for Premera.

Kinwell Medical Group's primary care clinic locations now open are in Lynnwood, Pasco, Renton, Wenatchee and Yakima. Additional clinics will continue to open this year. Designed as integrated care centers, Kinwell Medical Group's clinics provide onsite access to a variety of services.

"We want to provide personalized, wholehearted care by removing obstacles for patients looking to improve their health and create a real relationship with their care team," said Dr. Mia Wise, president of Kinwell Medical Group. "We look forward to expanding our offering into communities all over Washington state in the coming years."
