

## AP Producer News

# Attend the GeekWire Awards Virtually for Free!

May 6, 2022

Dear Valued Producer,

Your opportunity to celebrate the region's top innovators, entrepreneurs and technology leaders *from the comfort of your home* is coming up next Thursday, May 12, with free access to the livestream of the [GeekWire Awards](#) at 7 p.m.

Join the exclusive partners of ALLtech for this much-anticipated and hotly-contested ceremony that will include entertainment, fun surprises and coveted awards handed out in more than a dozen categories.

This year, ALLtech is sponsoring the Young Entrepreneur of the Year Award, which you can read more about in this [article from GeekWire](#).

### Share Our Video on How ALLtech Offers the Right Combination of Choice, Coverage and Cost

Looking for a great resource to help introduce your tech clients and prospects to ALLtech?

Send them our ALLtech video, which explains how ALLtech was specifically designed to meet the needs of Washington's growing tech industry. At just over a minute, it's a quick review of the program in an easily sharable format.

Please click the video image at left to watch and share!

### ACA Updates to Preventive Care

The health and well-being of ALLtech members is important to us and we encourage preventive care to help prevent or detect problems early on. As of May 1, 2022, there are changes taking effect for all groups with Affordable Care Act (ACA) preventive benefits. To reflect these changes, our preventive care flyers are updated below and also can be found on the [ALLtech Wellness Resources](#) page. Please share these resources with your groups to ensure they're aware of the changes and of their preventive care options. Below is a list of the changes to ACA preventive care benefits:

- **Screening for Prediabetes and Type 2 Diabetes:** The U.S. Preventive Services Task Force (USPSTF) recommends screening for prediabetes and type 2 diabetes in adults 35 to 70 years old who are overweight. This is an update from the previous recommendation, which was limited to type 2 diabetes screening and counseling in adults aged 40 to 70 if overweight or obese.

- **Counseling for Healthy Weight and Weight Gain in Pregnancy:** The USPSTF recommends that clinicians offer pregnant persons effective behavioral counseling interventions aimed at promoting healthy weight gain and preventing excess gestational weight gain in pregnancy.
