

Business Health Trust Surpasses 1,000 Member Companies

May 9, 2023

Our growing member base allows your clients to save big with increased purchasing power and rate stability.

Dear Valued Producer,

I am excited to announce that Business Health Trust (BHT) has hit a major milestone: Our membership has surpassed 1,000 employers! This means that your clients who choose BHT can save big – we are able to provide greater rate stability, greater purchasing power, and access to products and support that are designed for companies with 2 to 200 employees.

I know that rate stability is incredibly important. That is why I am thrilled to highlight:

- Rate certainty for up to 18 months for qualified groups – in some cases no rate increases at policy renewal
- Diverse 1/1 and 7/1 anniversary dates for BHT's large-group underwritten Industry Health Trusts
- Rolling renewals on BHT's Small-Group Community-Rated Program (PPO and HMO both available)

BHT's entire team is dedicated to helping your clients have the easiest transition experience possible. Please reach out if you need anything.

Sincerely,

Sarai Childs
